

What's New:

XTime Elite

V2.18.10.1

Workforce Management Solutions

Securing your time and resources

CONTENTS

This document is an amalgamation of all the changes, additions and fixes that are made to the Standard XTime 900 system. New version changes are added at the end of the document. There is also an index for ease of use. Simply hold down the Ctrl Button on the keyboard and click the left mouse button over the item number you wish to see and you will be taken to that item in the document.

Information on versions prior to 2.18.10.0 is available on request

➤ 53860:209339 Day off to work save work in shift.....	3
➤ G4SDEVI00100003 Vehicle DB field length checks.....	3

IMPORTANT NOTES

**** NB ****

All versions prior to 2.17.01.0 are no longer supported as of 2018-04-01.

2.18.10.1

NEW FEATURES

➤ **56644:210486 User report profiles expansion**

The configuration of the command centre has been refined and enhanced to make it easier and more user friendly.

EXCEPTIONS

➤ **53860:209339 Day off to work save work in shift**

There was an exception when calculating the day off to work on the export.

➤ **G4SDEVI00100003 Vehicle DB field length checks**

There was no checking done on the field lengths on the vehicle screen according to the max lengths on the database. So a user could type in many more characters on the screen which would cause the vehicle to not save to the database.
